Seat Covers Sets

TMI Interiors

All our trim panels and seat covers are manufactured in the USA by TMI, who have enjoyed an excellent world-wide reputation for the quality, originality and fit of their products. Due to the huge choices of material and style most products are supplied to order. A non-returnable 50% deposit is required at the time of ordering. For this reason you must be very careful to order correctly. Please supply your chassis number when ordering. We prefer to send samples of the actual material before you make your final choice.

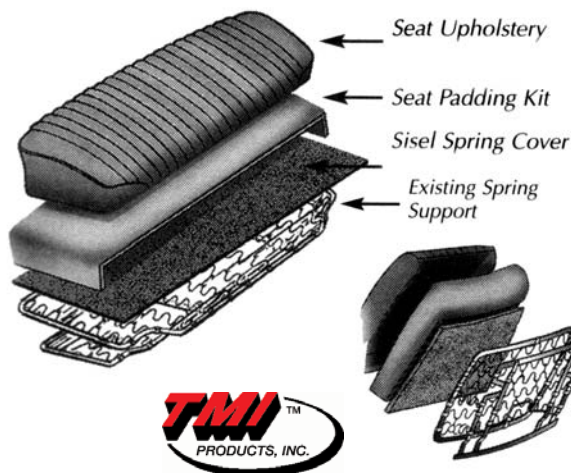

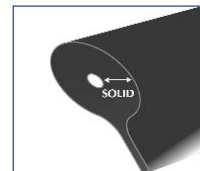

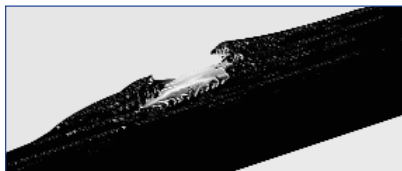

Seat Upholstery - Thick Vinyl

TMI uses only the thickest vinyl! Other manufacturers try to get by with using a thin vinyl film. All TMI Products feature thick, expanded vinyl with a knitted cross-linked backing for extra strength. Simply, TMI vinyl looks new longer, holds up to wear, cleans up easily and holds its original shape. We also stock all the popular custom colours and patterns.

Extruded Cord

The piping or "welt" on seats and door panels can be made in one of two ways - extruded or wrapped. TMI's extruded method produces piping made of a solid colour that is 23 times thicker than a vinyl wrapped cord. No matter how much wear you give extruded piping, it will never show the cord or white string the way that wrapped cord will.

Seat Pad Kits - Resilient Foam

TMI uses top quality foam that makes the cushion comfortable enough to sit on but firm enough to ensure that the upholstery fits correctly, without gaps or wrinkles.

TMI Interiors. All seat covers are manufactured in the USA by TMI. TMI have enjoyed an excellent world wide reputation for the quality, originality and fit of their products. Due to the huge choice of materials and styles most products are supplied to order. A non returnable 50% deposit is required at the time of ordering. Sisel spring cover. Essential to protect your padding from the movement of the springs. Do not be tempted to economise in this area.

6' x 28" (1863mm x 711mm)

All years	43-4411	each	£16.95
-----------	---------	------	--------

Hog ring pliers, with 100 hog rings. VW seats have several pointed tabs which are bent over to hold upholstery fittings. Should these break this upholsterer's tool can be used to for fill the same function.

All years	43-4410	set	£12.50
-----------	---------	-----	--------

Notes On Seat Covers

1. A few camper van conversions use a 'clip in' style of passenger seat. The appropriate TMI cover can be used, but will require minor modification at the rear.
2. Vans and bus's 1974 - 76 can have either of two seat styles. Check the style of the seat back - it's sides and upper corners. One has a much more modern appearance. Please ask your sales person for advice.

If in doubt about anything please call!
